**LOCUST**<sup>®</sup>  
CARRIER GOGGLE

## THE DESERT LOCUST<sup>®</sup> CARRIER GOGGLE

Designed for flight deck applications, adapting proprietary technologies and design from Revision's world class military & tactical eyewear.

**INNOVATION** – The result is a cutting edge goggle system that utilizes innovative, no-drip flame-resistant material and custom designed Outrigger clips to accommodate the Navy's flight deck helmet and environmental requirements. The Desert Locust lenses employ Revision's world class OcuMax<sup>®</sup> Plus anti-fog coating, proven to last 10 times longer than competing anti-fog solutions. The OcuMax Plus anti-fog coating is a true game changer, allowing the wearer to remain fog-free in extreme conditions.

# CHARACTERISTICS/COMPONENTS

<b>PURPOSE</b>	Designed for flight deck applications, utilizing flame-resistant material and custom designed outrigger clips to fit flight deck helmets.
<b>WEIGHT</b>	Extraordinarily light weighing in at just 122 grams.
<b>BALLISTIC PERFORMANCE</b>	<ul style="list-style-type: none"> <li>Meets EN 166, EN 170 and EN 172</li> <li>Meets ANSI Z87.1-2015</li> <li>Exceeds U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432A)</li> <li>Strap is compliant to NFPA 1971 section 7.5.2.</li> </ul>
<b>LENS COATINGS</b>	<p>Revision's Ocumax Plus sets the benchmark for next generation anti-fog coatings.</p> <ul style="list-style-type: none"> <li>Maintains clarity in extreme conditions</li> <li>Lasts 10 times longer than competing anti-fog solutions</li> <li>Anti-Scratch coatings on the outside of the lens and anti-fog coatings on the inside</li> </ul> <p><b>ANTI-FOG TEST:</b> EN166, Clause 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C</p>  <p>EN 166: Revision's Ocumax Plus coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.</p>
<b>SIZES</b>	Adjustable strap ensures one size fits all.
<b>LENSES</b>	<p>Lenses are made of indestructible, optical-grade polycarbonate and can be inter-changed quickly for different light conditions and environments – all providing 100% UV-A-B-C protection.</p> <ul style="list-style-type: none"> <li><b>CLEAR</b> – Maximize light transmittance. Use indoors or at night.</li> <li><b>SMOKE</b> – Reduce extreme glare and squinting. Use outdoors or in bright conditions.</li> <li><b>PHOTOCHROMIC</b> – Lenses are clear when indoors or at night and automatically darken to a sunglass tint when exposed to sunlight</li> </ul>
<b>FIELD OF VIEW ADVANTAGE</b>
