

# REVISION SNOWHAWK™

COLD WEATHER GOGGLE SYSTEM

**MFI**

MAGNETIC FACEMASK INTEGRATION

Anon's MFI technology  
for balaclava attachment

Complete facial seal with no skin  
exposure

OcuMax® Plus coating, air vents,  
& dual pane lenses prevent fogging

Interchangeable, high-impact  
polycarbonate lenses

100% UV A-B-C protection

CLOSE UP OF MAGNETIC INTERFACE  
ENGAGED WITH GOGGLE

4 MAGNETS CONNECT TO THE ATTACHMENT  
POINTS ON THE FRAME OF THE BALACLAVA

## The SnowHawk Cold Weather Goggle System protects in the most extreme environments, completely eliminating exposed skin.

**INTRODUCING** the world's first-ever fully integrated ballistic goggle and balaclava system offering 100% face coverage, supreme anti-fog performance and ballistic protection. Collaborating with ANON, an industry leading snow sports brand, Revision developed a goggle that provides unmatched ballistic protection and performance in extreme weather conditions. The SnowHawk system includes a magnetically integrated balaclava which seamlessly connects to the goggle. Operators can rely on the system's fog prevention for peak performance in cold climates without compromising protection.

### KEY FEATURES

#### FOG PREVENTION FEATURES –

**BREATHABLE BALACLAVA** – Mesh over mouth and nose directs breath away from goggle

**ANTI-FOG** – OcuMax® Plus coating protects against fogging and scratching

**VENTILATION** – Top and lateral forced air vents provide constant airflow

**DUAL PANE LENS SYSTEM** – Thermal gasket lens creates an insulated barrier to the cold exterior lens

**ANON'S MFI TECHNOLOGY** – Magnetic Facemask Integration (MFI) ensures balaclava magnetically connects to the goggle creating a complete facial seal

**HIGH-IMPACT PROTECTION** – Interchangeable, optical grade polycarbonate lens shields eyes from unexpected fragments and provide 100% protection from UV-A, UV-B and UV-C rays

**COMFORT & FIT** – Lightweight and comfortable, the SnowHawk is ideal for both tactical operations and extended-use missions

**COMPATIBILITY** – Low profile design ensures compatibility with helmet, binoculars and night vision systems

**ADJUSTABILITY** – Adjustable strapping system fits over the helmet, or on head

**PRESCRIPTION READY** – Optional Rx insert is fully compatible with SnowHawk as well as other Revision spectacles and goggles. Revision offers Rx Carrier fulfillment services.

#### SNOWHAWK OFFERS EXTREME PROTECTION

– CE certified in accordance with EN 166, EN 170 and EN 172

– Certified to ANSI Z87.1-2010 Standard

– Exceeds U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432 (GL)), superseding (MIL-DTL-43511, clause 3.5.10)

**ALL LENSES PROVIDE 100% UV-A, UV-B AND UV-C PROTECTION. LENSES INTERCHANGE EASILY WITHOUT ANY TOOLS.**

**CLEAR LENSES** – Maximize light transmittance. Use indoors or at night.

**SOLAR LENSES** – Reduce extreme glare and squinting. Use outdoors in bright conditions.

**SNOW GLARE LENSES** – Revision's SNOW GLARE lens, specifically developed for glare reduction, compliments the SnowHawk Cold Weather System as it is ideal for mountaineers in snow and arctic conditions. This special tint ensures decreased light transmission and reduced reflection off of lens.

**HIGH-CONTRAST LENSES**

**YELLOW** – Provide crisp definition in low-light conditions. Use during dull, cloudy or hazy conditions.

**VERMILLION** – Provide excellent color recognition and depth perception. Use in bright and cloudy conditions to reduce glare.

Laser and other specialty lenses available by special order.

**A WINNING COMBINATION**

Two industry-leading brands have come together to develop a best-in-class cold weather protective system. Combining Revision's military pedigree and Anon's expertise in snow sports apparel and equipment, the SnowHawk System promises to protect and perform in cold climates.

**REVISION®**

*OcuMax Plus is Revision's proprietary next-generation anti-fog lens coating designed to maintain clarity in extreme conditions. Revision's OcuMax Plus sets the benchmark for next generation anti-fog coatings. OcuMax Plus provides an optimal combination of anti-scratch coatings on the outside of the lens and anti-fog coatings on the inside.*
