The Caiman Bump Helmet System

BASELINE BLUNT IMPACT PROTECTION FOR MARITIME AND MOBILE OPERATORS

THE CAIMAN BUMP HELMET is built on an advanced reinforced polymer shell and is designed for the rigors of maritime and mobile maneuvers. A series of modular accessories—including a Wilcox® Shroud, a lean rail system, and the innovative, multi-size APEX Liner System—enhance this helmet suite, ensuring users are equipped with the lightest, most comfortable, and highest performance head protection possible. Optimized for a variety of operators, particularly global Coast Guard, Search and Rescue, and National Guard forces, this skeletonized helmet system places a premium on scalability and integration, giving operators a more stripped-down base for affixing headborne equipment.

Like Revision's other Caiman helmets, the Caiman Bump comes in five sizes, ensuring users are wearing the lightest, most comfortable, and most stable helmet possible. Moreover, Caiman helmets are expressly designed to incorporate electronics, communications headsets, and other equipment needs.

KEY FEATURES

- Bump System meets U.S Army Standard for impact protection (CO/PD-05-04)
- Five Helmet Sizes: 39% of users benefit from better-fitting, comfortable, and lighter helmet
- Weight: Advanced materials and manufacturing processes achieve lightweight helmet solution
- Best-in-class APEX Liner System is infinitely customizable, providing the ultimate comfort and impact protection
- Entire helmet system is designed to seamlessly integrate with other military and communications equipment
- Suite designed for a range of uses including ground and maritime environments
- Integrated System: Skeletonized Rails, NVG shroud, and optional full face protection accessories (various visors and mandible guards)
- Ground-up design: minimizes weight & bulk while offering maximum protection & performance

KEY TECHNICAL FEATURES

BALLISTIC PERFORMANCE

- Meets U.S Army Standard for impact protection AR-PD 14-01

WEIGHT

- Full system weight: < 737g – (Medium size)*
(Includes: Fiberglass Bump Shell, Wilcox® L4 Shroud, Rails, & APEX Liner System)

SHELL GEOMETRY & CONSTRUCTION

- Bump shell, provides extreme impact protection and structural rigidity

APEX LINER SYSTEM

- Impact liner provides best-in-class impact protection
- Comfort liner – optimized for stability, comfort and heat mitigation
- Removable, repositionable sections – for integration with overhead communications equipment
- Dial Ratchet Mechanism adjusts the fit band – provides on-the-fly dial adjustment
- Easily adjusted for a comfortable fit

SKELETONIZED RAILS

- Ensures integration with dove-tail style attachments and O2 mask clips as well as other performance enhancing equipment – including ballistic and bump mandible guards
- Skeletonized rails – rugged, durable design but 30% lighter than current rails
- Built-in bungees provide integrated cable management and stability for NVGs

**Average Weight of Medium System*

WARRANTY: Revision offers a 7 year warranty on helmet shells, 3 years on non-consumable helmet components (fit band, hardware, buckles), and 1 year on consumable helmet components (comfort layer, impact pads, retention system). Please go to <http://www.revisionmilitary.com/warranty/> for the complete limited warranty.

BATLSKIN.

THE ULTIMATE PROTECTION FROM TRAUMA – BLUNT FORCE, BLAST AND BALLISTIC: B3 TECHNOLOGY™ IN A SCALABLE, LIGHTWEIGHT PACKAGE THAT'S FULLY MODULAR AND FULLY INTEGRATED. SO YOU CAN TAILOR THE SYSTEM TO THE MISSION FOR PEAK PERFORMANCE.
