

Selected as the U.S. Army's Universal Prescription Lens Carrier (UPLC), the only Rx Carrier platform used by U.S. Army military.

A soldier's vision must be accurate in order to do his job properly. Over 30% of soldiers require corrective lenses to improve their eyesight, but wearing traditional eyewear under protective eyewear is not the optimal solution. The Revision Rx Carrier presents a rugged, convenient solution that works.

REVISION'S RX CARRIER – Designed to fit Revision's full line of military products, including the Sawfly® Spectacle System, StingerHawk™ Spectacle System, Desert Locust® Goggle System, Wolfspider® Goggle System or the Bullet Ant® Tactical Goggle System, this is an effective, efficient way to handle vision correction while providing high impact ocular protection.

KEY FEATURES

RUGGED – Carrier frame built for strength and durability

FIELD-OF-VIEW – Wide field-of-view and less than 12° face form angle. Carrier frame color does not distract or inhibit vision

PRESCRIPTION READY – Optician inserts personalized prescription lenses. We recommend polycarbonate and other high-impact material for lenses. Accommodates prescriptions up to ±11D

INTERCHANGEABLE – One size carrier fits the Sawfly Spectacle, the StingerHawk Spectacle, the Desert Locust Goggle, the Wolfspider Goggle or the Bullet Ant Tactical Goggle

CONVENIENT – Secure “press fit” insertion positions corrective lenses optimally
