VISOR SYSTEM

The BATLSKIN COBRA VISOR is a lightweight and easy to use protective enhancement to the Batlskin Head Protection System. It provides flawless optics to ensure the soldier is never distracted from the mission, while its unique pivot arm allows for three in-service positions: up when not in use, vented for cooling, and locked in the down position to protect against movement during blast and ballistic impact.

The Visor is a key component of the Batlskin Head Protection System, including the Batlskin Cobra P2 Helmet, Front Mount, Mandible Guard, Liner and Retention System.

KEY TECHNICAL FEATURES

BALLISTIC PERFORMANCE

- 245 m/s (804 fps), 1.1 g (17 gr) FSP

WEIGHT

- Full system (lens and arm) – 275 g (9.7 oz) – size Medium

IMPACT PROTECTION

- Tested at 70 joules when impacted at the front and sides as a separate unit and in conjunction with the Batlskin Mandible Guard

CONSTRUCTION AND DESIGN

- Three-position visor arm attaches to the Batlskin Front Mount: Up, vented and locked position allows for full ballistic coverage
- Designed to fit an M50 Gas mask when the Visor is in the closed position, providing simultaneous CBRN and ballistic protection

OPTICS

- Lens optically engineered ensuring flawless optics throughout the eyes' range of movement
- Lens coated with Revision's high performance OcuMax® coating, protecting against fogging, scratching and common military chemicals

SIMPLE MOUNTING SYSTEM

- Mounted to the helmet using the Batlskin Front Mount with standard NVG interface to decrease training time and increase standardization
- Simple and ergonomic design for ease of use; one-handed attachment without tools or removing helmet
- Maintains a low profile in up position – reduces interference in enclosed spaces

AVAILABLE SIZES

- Small, Medium, Large and X-Large

BATLSKIN™. The ultimate protection from trauma – blunt force, blast and ballistic: B3 Technology™ in a scalable, lightweight package that's fully modular and fully integrated. So you can tailor the system to the mission for peak performance.
