

THE DESERT LOCUST[®] GOGGLE

Designed as the ultimate protective eyewear, builds upon Revision's unmatched ability to protect soldiers' eyes.

THE DESERT LOCUST combines the best ballistic protection with optimal facial and helmet fit, balancing the soldier's need for comfort with well-sealed eye protection. The high performance OcuMax[®] coating prevents fogging and scratching to ensure clear vision while the optically correct goggle lens is engineered to maximize field-of-view and provide unprecedented visual clarity.

CHARACTERISTICS/COMPONENTS

PURPOSE	Revision's flagship goggle system: ballistic protection, wide field-of-view, optimized facial and helmet fit—the ultimate protective goggle for extended use.
WEIGHT	130 grams
BALLISTIC PERFORMANCE	<p>Meets or exceeds the following standards:</p> <ul style="list-style-type: none"> MIL-PRF-32432A clause 3.8.4.2 Ballistic fragmentation characteristics Class 2 and 3 goggles ANSI Z87.1-2015 clause 6 Impact-Rated Protector Requirements (Z87+) STANAG 2920 (Edition 2) V50 = 827 ft/s (252 m/s) EN 166 clause 7.3.4 Protection against high speed particles at extremes of temperature (FT)
LENS COATINGS	<p>Revision's Ocumax Plus sets the benchmark for next generation anti-fog coatings.</p> <ul style="list-style-type: none"> Maintains clarity in extreme conditions Lasts 10-20 times longer than competing anti-fog solutions Anti-Scratch coatings on the outside of the lens and anti-fog coatings on the inside <p>ANTI-FOG TEST: EN166, Clause 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C</p> <div>   </div> <p>EN 166: Revision's Ocumax Plus coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.</p>
SIZES	Adjustable strap ensures one size fits all.
LENSES	<p>Lenses are made of indestructible, optical-grade polycarbonate and can be inter-changed quickly for different light conditions and environments – all providing 100% UV-A-B-C protection.</p> <ul style="list-style-type: none"> CLEAR – Maximize light transmittance. Use indoors or at night. SMOKE – Reduce extreme glare and squinting. Use outdoors or in bright conditions. HIGH-CONTRAST YELLOW – Provide crisp definition in low-light conditions. Use during dull, cloudy or hazy conditions. HIGH-CONTRAST VERMILLION – Provide excellent color recognition and depth perception. Use in bright and cloudy conditions to reduce glare. <p>Laser and other specialty lenses available by special order.</p>
FIELD OF VIEW ADVANTAGE	 <p>The diagrams illustrate the field-of-view advantage of Revision goggles. The left diagram shows the superior and inferior field-of-view, with Revision (orange) providing a wider range than the competitor (grey). The right diagram shows the temporal and nasal field-of-view, with Revision (orange) providing a wider range than the competitor (grey). A legend indicates that grey represents the competitor and orange represents the Revision advantage.</p>
