

STINGERHAWK SPECTACLE

SAWFLY SYSTEM

SNOWHAWK COLD WEATHER GOGGLE

DESERT LOCUST GOGGLE

Selected as the U.S. Army's Universal Prescription Lens Carrier (UPLC), the only Rx Carrier platform used by U.S. Army military.

A soldier's vision must be accurate in order for them to do their job accurately. Over 30% of soldiers require corrective lenses to improve their eyesight, but wearing traditional eyewear under protective eyewear is not the optimal solution. The Revision Rx Carrier presents a rugged, convenient solution that works.

REVISION'S RX CARRIER – Designed to fit Revision's full line of military products, including the Sawfly® Spectacle System, StingerHawk® Spectacle System, Desert Locust® Goggle System, or the SnowHawk® Goggle System, this is an effective, efficient way to handle vision correction while providing high impact ocular protection.

Note: Standard connector piece needed for use with DL and WS. Speciality connector needed for SnowHawk.

KEY FEATURES

RUGGED – Carrier frame built for strength and durability

FIELD-OF-VIEW – Wide field-of-view and less than 12° face form angle. Carrier frame color does not distract or inhibit vision

PRESCRIPTION READY – Optician inserts personalized prescription lenses. We recommend polycarbonate and other high-impact material for lenses. Accommodates prescriptions up to ±11D

INTERCHANGEABLE – One size carrier fits the Sawfly Spectacle, the StingerHawk Spectacle, the Desert Locust Goggle, or the SnowHawk Goggle System

CONVENIENT – Secure “press fit” insertion positions corrective lenses optimally
