

Selected as the U.S. Army's Universal Prescription Lens Carrier (UPLC), the only Rx Carrier platform used by U.S. Army military.

A soldier's vision must be accurate in order for them to do their job accurately. Over 30% of soldiers require corrective lenses to improve their eyesight, but wearing traditional eyewear under protective eyewear is not the optimal solution. The Revision Rx Carrier presents a rugged, convenient solution that works.

REVISION'S RX CARRIER – Designed to fit Revision's full line of military products, including the Sawfly® Spectacle System, StingerHawk® Spectacle System, Desert Locust® Goggle System, or the SnowHawk® Goggle System, this is an effective, efficient way to handle vision correction while providing high impact ocular protection.

Note: Connector piece required for use with goggles.

FIELD-OF-VIEW
Wide field-of-view. Carrier frame color does not distract or inhibit vision

PRESCRIPTION READY
Optician inserts personalized prescription lenses. We recommend polycarbonate and other high-impact material for lenses. Accommodates prescriptions up to ±11D

RUGGED
Carrier frame built for strength and durability

CONVENIENT
Secure "press fit" insertion positions corrective lenses optimally

INTERCHANGEABLE
One size carrier fits the Sawfly & StingerHawk Spectacles, SlingShot Sunglasses, Locust Goggle Systems, Wolfspider Goggle, MerlinHawk Goggle System & SnowHawk Cold Weather Goggle
