

## THE SAWFLY R3 EYEWEAR SYSTEM

The next generation of the battle-proven, legacy Sawfly<sup>®</sup> eyewear.

**SAWFLY R3 EYEWEAR SYSTEM** is a modernized upgrade of Revision's legacy Sawfly spectacles – the most widely supplied military protective eyewear globally. The Sawfly R3 design fine-tunes the signature features, renowned protection, and proven performance of Sawfly eyepro. Upgraded temple arms improve fit, comfort, and retention; a revised brow design sits cleaner against the face; and a fresh look provides sharper style and a lower profile. All these aspects stem from the principle goal of this revitalized design: to better integrate with helmets and head subsystems while preserving the proven characteristics of the classic Sawfly.

## CHARACTERISTICS/COMPONENTS

<b>PURPOSE</b>	Next generation of the battle-proven, legacy Sawfly eyewear.
<b>WEIGHT</b>	At just over an ounce, Sawfly R3 is lighter than competing eyewear.
<b>BALLISTIC PERFORMANCE</b>	<p>Meets or exceeds the following standards:</p> <ul style="list-style-type: none"> <li>MIL-PRF-32432A clause 3.8.4.1 Ballistic fragmentation characteristics Class 1 spectacles</li> <li>ANSI Z87.1-2015 clause 6 Impact-Rated Protector Requirements (Z87+)</li> <li>EN 166 clause 7.3.4 Protection against high speed particles at extremes of temperature (FT)</li> </ul>
<b>LENS COATINGS</b>	<p>Revision's Ocumax sets the benchmark for next generation anti-fog coatings.</p> <ul style="list-style-type: none"> <li>Maintains clarity in extreme conditions</li> <li>Lasts 10-20 times longer than competing anti-fog solutions</li> <li>Anti-Scratch coatings on the outside of the lens and anti-fog coatings on the inside</li> </ul> <p><b>ANTI-FOG TEST:</b> EN166, Clause 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C</p>  <p>EN 166: Revision's Ocumax coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.</p>
<b>SIZES</b>	<p>Small, Regular and Large.</p> <p>Engineered in three size options to ensure correct fit – providing optimal comfort, performance and above all protection.</p>
<b>LENSES</b>	<p>Lenses are made of indestructible, optical-grade polycarbonate and can be inter-changed quickly for different light conditions and environments – all providing 100% UV-A-B-C protection.</p> <ul style="list-style-type: none"> <li><b>CLEAR</b> – Maximize light transmittance. Use indoors or at night.</li> <li><b>SMOKE</b> – Reduce extreme glare and squinting. Use outdoors or in bright conditions.</li> <li><b>HIGH-CONTRAST YELLOW</b> – Provide crisp definition in low-light conditions. Use during dull, cloudy or hazy conditions.</li> <li><b>HIGH-CONTRAST VERMILLION</b> – Provide excellent color recognition and depth perception. Use in bright and cloudy conditions to reduce glare.</li> </ul> <p>Laser, polarized and other specialty lenses available by special order.</p>
