

PREMIUM COMBAT HELMET
BATLSKIN
viper™ P4

REVISION.

UP TO

24%

LIGHTER

THAN LEGACY ACH HELMET

Revision's Batlskin Viper P4 Premium Combat Helmet, built in the ACH shape and to exacting military specifications.

REVISION HAS MODERNIZED THE TRADITIONAL ADVANCED COMBAT HELMET: The Viper P4 Head Protection System brings this essential equipment in line with today's technological advances in warfighter's equipment. Utilizing cutting-edge, composite, hybridized Ultra-High-Molecular-Weight Polyethylene (UHMWPE) material, Revision manufactures the most advanced combat helmet that is up to 24%* lighter than the legacy U.S. Army ACH system, pushing the boundaries of obtainable weight reduction while maintaining superior ballistic and fragmentation protection.

The Batlskin Viper P4 Lightweight Combat Helmet is the foundation for all Batlskin modular components, including the Front Mount, Rails, Mandible Guard and Visor. Helmets are available in a full range of cuts (full, mid and high), sizes (small to x-large) and colors. They come standard with one NVG hole and the Modular Suspension System.

THE VIPER P4 HELMET

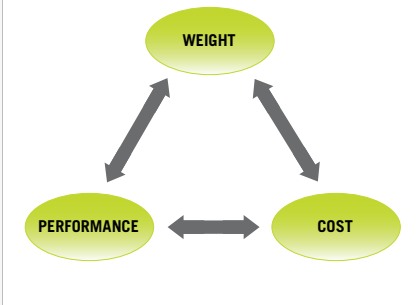

SYSTEM UTILIZES THE SAME
SHELL TECHNOLOGY AS THE
REVISION-AWARDED U.S. ARMY
NEXT GENERATION ACH (GEN
II) CONTRACT HELMET

KEY FEATURES

- Lightest weight 'ACH' protection available today
- Only helmet selected by U.S Army as its next generation standard combat helmet
- Available with Revision's MSS Liner System for enhanced comfort and stability
- Every helmet meets U.S Army strict performance, protection and quality standards
- Foundation for all Batlskin Modular Protection System components and accessories
- Compatible with NVGs, Chem/Bio Masks and communication devices
- 3 cut styles provide variable coverage options
- Stops NIJ IIIA level threats

The 'Art of Armor Design'

VIPER P4 HELMET SYSTEM:

THE VIPER P4 HELMET PROVIDES

THE IDEAL BALANCE BETWEEN PRICE

WEIGHT AND PERFORMANCE.

BALLISTIC PERFORMANCE**

- 17gr FSP V50 >2400 fps / 730 m/s and meets all other ACH level fragmentation requirements
- 9mm RTP, 124gr FMJ-RN, 427 m/s (1400 fps) with low deformation (<25mm in clay)
- Helmet Shell complies with U.S. Army's AR/PD 14-01
- Stops NIJ IIIA level threats

BLUNT IMPACT PROTECTION

- Blunt impact protection for 10.0 feet per second impacts, in accordance with AR/PD 14-01
- Compression resistance deformations, in accordance with AR/PD 14-01

WEIGHT***

- Full-Cut system with MSS – 1140 g (40 oz) - Size Medium

SUSPENSION AND RETENTION SYSTEM

- 4-Point integrated harness with unique buckle system (no loose straps)
- Dial Ratchet Mechanism adjusts the fit band – a simple one handed operation
- System offers adjustability while on the move
- Height adjustable nape pad to ensure superior comfort and stability
- Adjustable crown net for sweat wicking, comfort and low pressure for extended use
- No-net option available incorporating additional comfort layer
- Low-weight ballistic bolts

IMPACT LINER

- Low profile impact material does not contact the head in normal operation
- Provides a free flow of air to aid in cooling
- Exceeds U.S. Army ACH impact standards
- Tested with multiple hits and across all temperature ranges
