MANDIBLE GUARD

The BATLSKIN COBRA MANDIBLE GUARD provides best-in-class lower-face protection in a design that's lightweight, quick to fit without tools and quick to remove while on the run. The Mandible Guard attaches to the Batlskin Front Mount, minimizing training while providing rapid attachment and removal of the system.

The Mandible Guard is a key component of the Batlskin Head Protection System, including the Batlskin Cobra P2 Helmet, Front Mount, Visor, Impact Liner and Retention System.

KEY TECHNICAL FEATURES

BALLISTIC PERFORMANCE (V50)

- Ballistic Mandible Guard – 675+ m/s (2215+ fps), 1.1 g (17 gr) FSP, 9mm resistance to penetration

WEIGHT (INCLUDING ALL ATTACHMENTS)

- Ballistic Mandible Guard – 385 g (14 oz) – size Medium

GEOMETRY AND CONSTRUCTION

- Close fitting but designed not to interfere with communications systems
- Ballistic Mandible Guard is constructed of Ultra-high-molecular-weight polyethylene (UHMWPE) encased in a rigid and durable composite structure

IMPACT PROTECTION

- System is able to withstand over 70 joules of impact (a 300% increase versus the U.S. helmet impact standards) with no damage

ATTACHMENT MECHANISM

- Securely attached using the Batlskin Front Mount and quick release strap allowing for rapid don and doff
- Designed to be able to drink fluids and communicate effectively
- Designed to utilize the Batlskin Front Mount, avoiding the need for additional attachment accessories

FINISH

- Standard colors with textured surface finish
- CBRN resilient version available

AVAILABLE SIZES

- Small, Medium, Large and X-Large

BATLSKIN™ The ultimate protection from trauma – blunt force, blast and ballistic: B3 Technology™ in a scalable, lightweight package that's fully modular and fully integrated. So you can tailor the system to the mission for peak performance.
