**SNOWHAWK™**  
COLD WEATHER GOGGLE SYSTEM

*OcuMax® Plus coating, air vents,  
& dual pane lenses prevent fogging*

*Interchangeable, high-impact  
polycarbonate lenses*

*100% UV A-B-C protection*

## The SnowHawk® Cold Weather Goggle System protects against exposure in extreme cold weather conditions

Revision's **SNOWHAWK GOGGLE SYSTEM** was developed specifically for use in extreme environments. Its striking design and secure fit makes this eyewear solution both adaptable to a range of mission profiles as well as uniquely suited for the most unforgiving environments on Earth.

SnowHawk goggles deliver unmatched ballistic protection and anti-fog performance in remote, sub-zero conditions. With frames designed to seal securely and comfortably against the wearer's face, and military-grade dual-pane thermal gasket lenses, SnowHawk eyewear insulates the eyes, providing elite environmental protection – for missions where the elements pose an equally formidable threat.

### KEY FEATURES

#### FOG PREVENTION FEATURES:

- **ANTI-FOG** – OcuMax® Plus coating protects against fogging and scratching
- **VENTILATION** – Top and lateral forced air vents provide constant airflow
- **DUAL PANE LENS SYSTEM** – Thermal gasket lens creates an insulated barrier to the cold exterior lens

**HIGH-IMPACT PROTECTION** – Interchangeable, optical grade polycarbonate lens shields eyes from unexpected fragments and provide 100% protection from UV-A, UV-B and UV-C rays

**COMFORT & FIT** – Lightweight and comfortable, the SnowHawk is ideal for both tactical operations and extended-use missions

**COMPATIBILITY** – Low profile design ensures compatibility with helmet, binoculars and night vision systems

**ADJUSTABILITY** – Adjustable strapping system fits over the helmet, or on head

**PRESCRIPTION READY** – Optional Rx insert is fully compatible with SnowHawk as well as other Revision spectacles and goggles. Revision offers Rx Carrier fulfillment services.

#### SNOWHAWK OFFERS EXTREME PROTECTION:

- **CE CERTIFIED** in accordance with EN 166, EN 170 and EN 172
- **CERTIFIED** to ANSI Z87.1-2010 Standard
- **EXCEEDS** U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432 (GL))

#### LENSES INTERCHANGE EASILY WITHOUT ANY TOOLS:

- **CLEAR LENSES** – Maximize light transmittance. Use indoors or at night.
- **SMOKE LENSES** – Reduce extreme glare and squinting. Use outdoors in bright conditions.

## OPTIONAL BALACLAVA

### A WINNING COMBINATION

Two industry-leading brands have come together to develop a best-in-class cold weather protective system. Combining Revision's military pedigree and Anon's expertise in snow sports apparel and equipment, the SnowHawk System promises to protect and perform in cold climates, completely eliminating exposed skin. Built-in magnetic attachment points in the frame (MFI technology®, developed in collaboration with Anon®) give users the option to directly incorporate a tailored balaclava—made from durable, breathable, moisture-wicking material, with mesh over the mouth and nose to direct breath away.

**ANON'S MFI TECHNOLOGY®** – Magnetic Facemask Integration (MFI) ensures balaclava magnetically connects to the goggle creating a complete facial seal

**MFI**  
MAGNETIC FACEMASK INTEGRATION

**OCUMAX®** 

*OcuMax® Plus is Revision's proprietary next-generation anti-fog lens coating designed to maintain clarity in extreme conditions. Revision's OcuMax Plus sets the benchmark for next generation anti-fog coatings. OcuMax Plus provides an optimal combination of anti-scratch coatings on the outside of the lens and anti-fog coatings on the inside.*
