REVISION
ShadowStrike™
BALLISTIC TACTICAL SUNGLASS

ShadowStrike™ Tactical Ballistic Sunglasses – Elite anti-fog ballistic sunglasses built from the ground up to U.S. military protection standards.

*Interchangeable lenses with
innovative lens exchange*

*OcuMax Plus provides exceptional
anti-scratch & anti-fog protection*

Flawless optics

Robust & durable

Superior ballistics

Military level protection

OcuMax® Plus is Revision's proprietary next-generation anti-fog lens coating designed to maintain clarity in extreme conditions. Revision's OcuMax Plus sets the benchmark for next generation anti-fog coatings. OcuMax Plus provides an optimal combination of anti-scratch coatings on the outside of the lens and anti-fog coatings on the inside.

SHADOWSTRIKE SUNGLASSES have a sharp, geometrical wraparound design that provides unobstructed field-of-vision and ballistic protection for fast-paced tactical, special ops, and military operations. Angular frames and a tighter curvature give this line a distinctive look while maximizing protection—fitting squarely, securely, and comfortably at all times.

With optical-grade, polycarbonate lenses, ShadowStrike sunglasses provide the impact resistance Revision eyewear is known for, exceeding U.S. military eyewear ballistic requirements. ShadowStrike sunglasses feature a novel nosepiece mechanism that makes changing out the dual lenses quick and easy. And, this eyewear provides ultraviolet protection and has Revision's OcuMax Plus coating, preventing the close-fit sunglasses from fogging in the heat of the mission.

KEY FEATURES

INTERCHANGEABLE LENSES – Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions

SUPERIOR BALLISTICS – High-impact polycarbonate lenses exceed military ballistic impact requirements for spectacles and goggles

ANTI-FOG – OcuMax Plus is proven to be the #1 anti-fog and scratch-resistant coating in the world; also resists wide variety of chemicals, including DEET

FLAWLESS OPTICS – Precision manufactured lenses ensure distortion-free vision and anti-fog performance

UV PROTECTION – 100% protection from harmful UV-A, UV-B and UV-C rays

DESIGN – streamlined ergonomic design provides comfort for all

RUGGED DURABILITY – Eye protection that lasts, performs and protects through all the rigors of combat

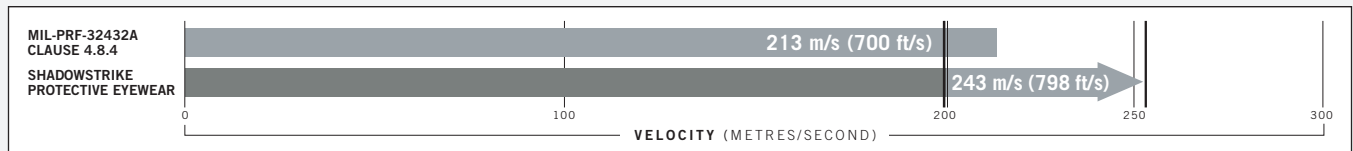

FIELD-OF-VIEW – Compact, low profile design with unrestricted field-of-view fits comfortably for a variety of missions.

SHADOWSTRIKE PROVIDES BEST-IN-CLASS, MILITARY-GRADE IMPACT PROTECTION

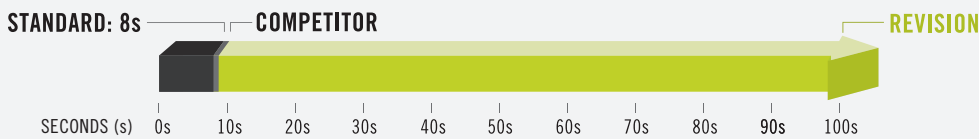

- CE Certified in accordance with EN 166, EN 170 and EN 172
- Exceeds U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432A, clause 4.8.4), superseding (MIL-PRF-32432 (GL), clause 3.6.3.2)

DON'T RISK YOUR EYESIGHT — OVER 90% OF EYE INJURIES ARE PREVENTABLE

Taking Revision's distinctive sunglasses line to the next level, ShadowStrike Sunglasses have undergone rigorous in-house and external testing to ensure best-in-class fragmentation and impact protection. The ShadowStrike's best-in-class protection surpassed other eyewear in rigorous impact testing, both in the lab and in the field.

ANTI-FOG TEST: EN166, CLAUSE 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C

EN 166: Revision's Ocumax Plus coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.

OPTICAL PERFORMANCE

ShadowStrike eyewear has passed stringent military optical tests for visual clarity. Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV.

CLEAR LENSES – Maximize light transmittance. Use indoors or at night.

SOLAR LENSES – Reduce extreme glare and squinting. Use outdoors in bright conditions.
