BATLSKIN
MODULAR PROTECTION SYSTEM

viper™

MANDIBLE GUARD

The BATLSKIN VIPER MANDIBLE GUARD provides best-in-class lower-face protection in a strapless design that's lightweight, quick to fit without tools and quick to remove while on the run. Available in ballistic and wire configurations to suit the mission at hand, each Mandible Guard attaches to the Batskin Front Mount, minimizing training while providing rapid attachment and removal of the system.

KEY TECHNICAL FEATURES

BALLISTIC PERFORMANCE

- Ballistic Mandible Guard protects against:
 - 17 gr (1.1 g) FSP V50 > 2200 ft/s (671 m/s), equivalent to U.S. Army ACH requirement
 - 9 mm FMJ threats at 1400 ft/s (427 m/s), equivalent to U.S. Army ACH requirement
- Protects against NIJ IIIA level threats

WEIGHT

- Ballistic Mandible Guard – 15 oz (425 g) – size Medium
- Wire Mandible Guard – 15.3 oz (435 g) – size Medium

IMPACT PROTECTION

- Ballistic and Wire Mandible Guard Systems are able to withstand multiple impacts over 45 joules (double the current U.S. helmet impact standard) with no damage

GEOMETRY AND CONSTRUCTION

- Close fitting design interfaces with communications systems
- Ballistic Mandible Guard is constructed of Ultra-high-molecular-weight polyethylene (UHMWPE)
- Wire Mandible Guard is composed of steel, offering blunt force protection, increased situational awareness and no sound interference

ATTACHMENT MECHANISM

- Securely attaches using the Batskin Front Mount and allows for rapid don and doff
- Two buttons on either side allow mandible guard to be tilted downwards in varying degrees for improved sight compatibility, eating and drinking
- Pushing the mandible against the chest brings it back to original position – a quick, hands-free operation
- Designed to utilize the Batskin Front Mount, avoiding the need for additional attachment accessories

FINISH

- Standard colors with textured surface finish
- CBRN resilient version available

AVAILABLE SIZES

- Small, Medium, Large and X-Large

BATLSKIN

The ultimate protection from trauma – blunt force, blast and ballistic: B³ Technology™ in a scalable, lightweight package that's fully modular and fully integrated. So you can tailor the system to the mission for peak performance.
